Big Geodata Analytical Methods and Distributed Computing

Dashboard / My courses / BGAMDC / Review / Team Learning Exercise

Team Learning Exercise

Mark as done

First, read on your own the following article and provide preliminary answers to the question. After that, discuss your preliminary answers with your team members and agree upon a final team answer for the question.

Paper(link): Tatem, A et al. (2004) Momentous sprint at the 2156 Olympics? Nature 431, 525.

Question: Which problems do you see with the Olympic analysis in this paper?

Last modified: Friday, 18 February 2022, 8:34 PM
